Special Act/Service Award

Office of Financial Control and Reporting – ME-12

In recognition of your outstanding efforts resulting in the Department of Energy being the only agency that fully met new accounting reporting requirements of the Department of Homeland Security for March 2003.

Barbara Harbell

In recognition of your outstanding efforts with respect to the Department's FY 2002 Federal Agencies' Centralized Trial-Balance System (FACTS) I reporting process.

Marion Hoch

Office of Program Liaison and Financial Analysis – ME-100

In recognition of your efforts to ensure the Department met stringent Office of Management and Budget reporting requirements for financial management performance metrics. Your support facilitated the establishment of a corporate reporting process and helped the Department overcome accelerated reporting timeframes to become one of the first CFO Act Agencies to complete on-line reporting of performance data. This accomplishment is a key step towards ensuring the Department meets all performance expectations established in the President's Management Agenda.

Genoa Mitchell

Group Special Act/Service Awards

Office of Program Liaison and Financial Analysis – ME-100

In recognition of your contributions to the Support Costs by Functional Activity System Development Team. Your efforts resulted in the successful implementation of a system that allows trending of support costs by functional activity covering 30 of the Department's largest contractors. The new system allows the Department to provide information requested by Congress and allows managers anywhere in DOE to access and analyze the data for making management decisions regarding cost control. The system also provides a standard software environment that can be used for other reporting requirements.

Richard Heller

In recognition of your contributions to the Purchase Card Program Assessment Team. Your efforts resulted in the successful assessment of over 35 Departmental purchase card programs within an extremely limited timeframe. The Team's work was critical in improving management of Departmental purchase card programs and helping to defend the overall program against intense external scrutiny. The quick assimilation of program requirements and use of innovative review and analysis strategies were key to the success of this important Government-wide initiative. The overall affect of the Team's effort was a much improved control environment over Departmental purchase card programs.
